

3 SEASON SPONSOR RECOGNITION

Boeing is proud to be the presenting sponsor of the *FIRST*[®] Robotics Competition this season.

For more than 50 years, Boeing has been a leader in human space flight beginning with the Mercury capsule that took the first American to space in 1961. Boeing builds crewed spacecraft, rockets, satellites and more and will continue to keep the U.S. at the forefront of innovation in space exploration - taking humans and technology farther than we've ever been.

How will you be part of the future of space exploration?

Check out boeing.com/space to see where we're heading next!

Good luck to all the teams this season. See you in deep space!
